

# Cleantech Forum **San Francisco**

San Francisco | January 22–24, 2018

Since 2002, Cleantech Group has brought together clean technology's most influential leaders – corporate executives, start-up and growth company CEOs, investors, government agencies, and other players – from across all areas of resource innovation, major industrial verticals, and from around the world.

Our forums help our audiences chart the future and filter the noise, allowing you to concentrate on the people and topics that matter most. We aim to showcase the trends to watch out for and the innovation companies that illustrate them. The innovation on show is all-encompassing: from new business models to financing models, from key partnerships to the technology enablers themselves.

Now in its 16th year, Cleantech Forum San Francisco remains *the* annual gathering of the global innovation community, offering a comprehensive, multi-day program with exclusive opportunities to learn, network, and get deals done.

Cleantech Forum San Francisco will kick-off the year in buoyant mood, as we unveil and celebrate companies in the 9th edition of our Global Cleantech 100 program.

*"It was an absolute blast! Loved my first Cleantech Forum. What amazing people you gather. Feeling inspired and motivated."*

Claire O'Connor, Senior Advisor,  
International Affairs, US Department of Energy

*"Startups, entrepreneurs, investors, corporates - all the most influential leaders and innovators of the global cleantech industry gather at Cleantech Forum San Francisco to attend meaningful discussions and identify new trends, emerging innovations and their deployment. It really is a MUST in the cleantech industry."*

Andrée-Lise Méthot, Founder & Managing Director,  
Cycle Capital Management

*"Thank you for a great forum! I was humbled by the smart and experienced people I met, it was great rubbing shoulders with such intelligent people. And I'm following up with several of them!"*

Kathy Giori, Vice President,  
Arduino

# Global Cleantech 100

Cleantech Forum San Francisco will host the official unveiling of our 9th annual Global Cleantech 100 list. It is the ideal platform to feature the innovative companies with the best prospects of making significant market impact in the coming 5-10 years.

Cleantech Forum San Francisco will benefit from the contributions of these leading CEOs across the cleantech landscape. In addition to our Forum programming, we will host our annual Global Cleantech 100 gala dinner and awards ceremony during the event.

## Global Cleantech 100

### Sponsorship Opportunity: The Global Cleantech 100 Program

You can sponsor our Global Cleantech 100 program, the leading ranking of the most promising emergent private companies. See **Appendix 1** for details. Benefits can be tailored but will typically include:

- Advertising and content opportunities within the annual report (by far our most downloaded report of the year)
- Access to the leading companies that the top players in the market are excited by today
- Access to the expert panelists, the people whose input is a major part of the creation of the Global Cleantech 100 list, as well as the sister list, *Ones to Watch*

# Facts about Cleantech Forum San Francisco

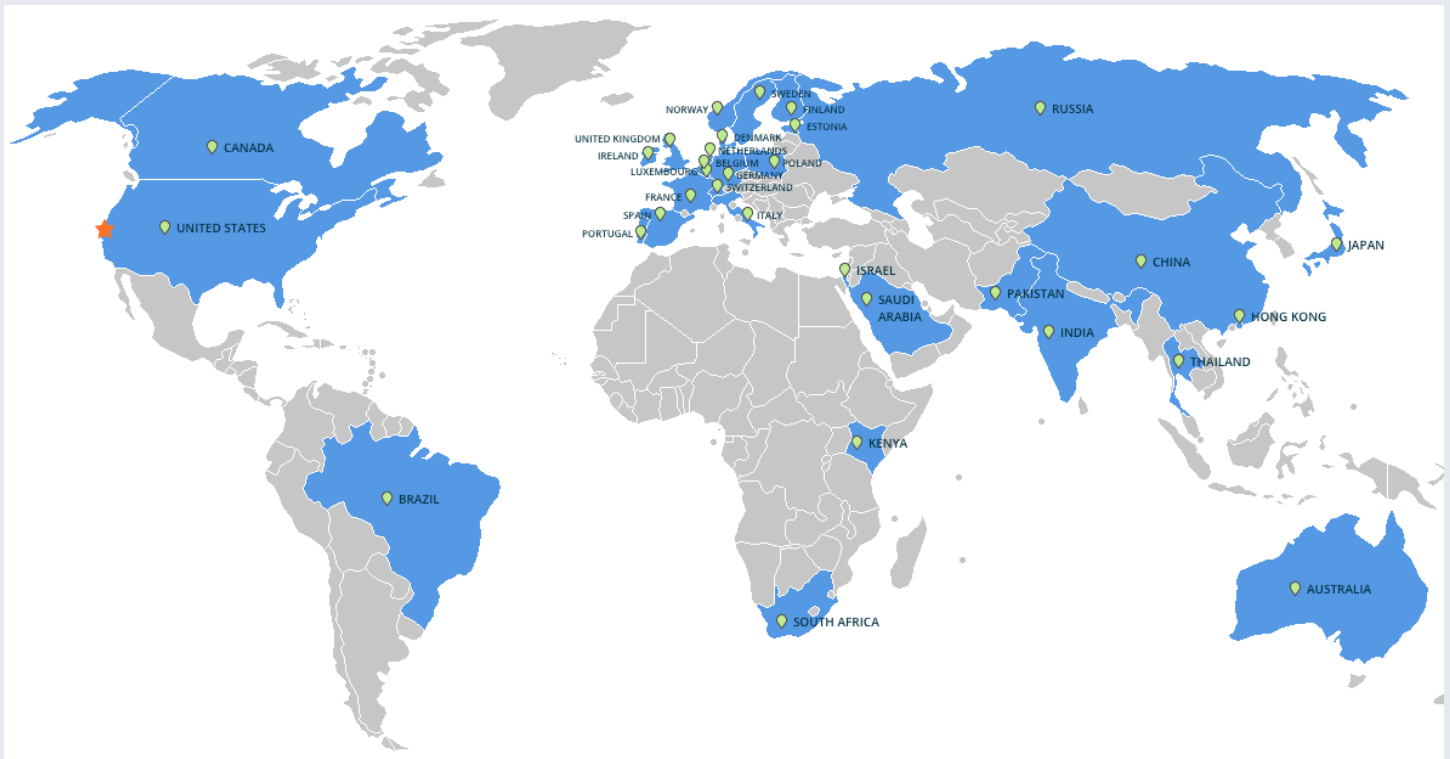

## Who Attends

## Why Attend

## Sampling of Past Sponsors

## Demonstrated Benefits for Sponsors:

- Create value for and develop your industry ecosystem via access to top cleantech innovators and corporate executives from Fortune 1000 companies, top-tier investment firms, worldwide governments, and innovative startups.
- Drive deal flow by positioning and promoting your organization as a cleantech leader to CEOs, corporate strategy executives, leading technology innovators, and business unit decision makers.
- Associate your brand with the world's most important industry event of the year, identify new clients, and enhance visibility.

## Sponsorship Opportunities

Becoming a sponsor of Cleantech Forum San Francisco is the most targeted and effective way for you to reach the global cleantech innovation community.

## Sponsor Levels

All our sponsorship agreements are tailored to the sponsor to align closely with their objectives at the Forum.

Sponsorship agreements can be built up from us reviewing together the range of possible benefits, as outlined below, and matching them to suit different objectives and different budget levels. Alternatively, we can start by reviewing, and potentially customizing, the sample of standard Forum sponsorship packages provided in **Appendix 2**.

Our standard sponsorship packages are broken into several levels, as follows:

**Headline:** \$30,000

**Platinum:** \$22,500

**Gold:** \$15,000

**Silver:** \$10,000

**Bronze:** \$5,000

The cost of your final package will depend, if it varies from the standard packages in **Appendix 2**, on the sum of benefits included within it, including the number of included passes within the sponsorship.

## Sponsor Benefit Options

The menu of benefits and associated costs are outlined in the following pages. We work with our sponsors to customize these elements to suit their purposes.

### Main Stage Time

Subject to editorial approval, some sponsors can be guaranteed main-stage time, be that as a 15-minute keynote type contribution, or as a shorter (5-7 minute) spotlight (typically used for key announcements and partnership case studies, to alert our audiences to examples of what you have done and wish to do more of).

\*Note: We are highly selective for our main-stage agenda - only those sponsors deemed by Cleantech Group to have exemplary content that is of interest to a large proportion of our audience will be considered.

### Co-hosting a Session on the Forum Agenda

This activity would allow the sponsor to co-create a session with CTG on a topic on the Forum agenda, fits the Forum theme, and is of strong interest to Forum attendees.

The most common activity involves co-creating one of our standard 60-minute parallel sessions. There is also the potential to be one of 3 such co-sponsors on one of our two longer time blocks, one on Monday and one on Wednesday (as per the provisional agenda shown in **Appendix 3**).

The third possibility is to co-create and host a breakfast or a lunch session.

\*Note: CTG retains ultimate editorial control over all agenda items, and works with session co-hosts to ensure all sessions are impactful and in line with the Forum themes and audience interests - while ensuring the sponsors remain comfortable and satisfied with the final product.

### Running a Workshop or a Tutorial

This activity would allow the sponsor, subject to CTG's agreement that it is a good fit for our Forum, to run a side event (hosted in rooms with capacities of 20-40 people). The two typical formats are:

- Interactive Workshops (up to 40 minutes of content time)
- Tutorials (up to 20 minutes of content time) designed for a single speaker (typically) to have the opportunity to go more in-depth on a very specific subject.

## Sponsor Benefit Options Continued...

### Establishment of One-on-One Meetings and Private Meeting Rooms

CTG will work with the sponsors to understand with which particular individuals they would like to have private meetings. CTG will then aim to secure and schedule selected one-on-one meetings with these particular contacts at the event. To determine a meetings schedule, CTG will collaborate with the sponsors on highest priorities and most appropriate meeting targets in the run-up to the Forum.

Subject to availability - either as an addition to scheduled meetings or an alternative sponsor benefit - private meeting rooms can be reserved.

### Exhibit Space

Forum exhibit spaces are placed in the main networking area of the Forum and therefore benefit from high foot traffic throughout the event. The space can be used how the sponsor wishes, as long as it is relevant to the Forum delegates. Examples of how the Forum space tends to be used include: distributing materials, display of products, a dedicated area to set up one-on-one meetings, branding and advertising.

Note: The basic Forum exhibit space will include one rectangular table (8ft), two chairs, and access to power (via power strip). All signage and advertising must be free-standing or placed on the table, and all items must fit within the total exhibit space of 4ft x 8ft. Monitors and other equipment are available to rent directly through the venue. Sponsors are responsible for any shipments made to and from the venue.

### Forum Receptions or Tailored Networking Activity

We have 3 evening receptions (Opening, Tuesday, and Closing) that sponsors can host, allowing you to address the crowd and invite people to speak with you during the reception.

There is also the option for a sponsor to host to an invitation-only activity organized by CTG (e.g. dinner, lunch, cocktail). CTG would invite and confirm selected delegates based on the sponsor's preferences (such as particular investors, corporations, entrepreneurs) and provide the sponsor with the appropriate ambience and format for valuable introductions and networking time. Activities can be located at the main Forum venue or in a separate private space.

## Other Options

Cleantech Group will work with sponsors to customize the package to meet your needs and find options to suit your objectives and budgets. Examples of other sponsorship benefits that could be included in your package are:

- Host of a round-table discussion during the general networking lunch
- Exclusive Sponsor of the Cleantech Forum's Program Guide
- Exclusive Sponsor of the Cleantech Forum Event App
- Sponsorship (and participation in) Cleantech Forum's private speed networking and private coaching sessions for entrepreneurs
- Exclusive Sponsor of Cleantech Forum's Registration Desk

## 2018 Venue: Parc 55 San Francisco a Hilton Hotel

Cleantech Forum San Francisco 2018 will be headquartered at **Parc 55 San Francisco**, located just steps away from Union Square, the Powell Street cable car turnaround, and the Moscone Center. With a contemporary design geared for both corporate and leisure guests, the hotel is an exceptional place to stay while visiting San Francisco. Parc 55 boasts 1,024 accommodating guest rooms, a full service 24-hour fitness center, and an array of dining options.

Parc 55 San Francisco  
55 Cyril Magnin Street  
San Francisco, CA 94102

### About Cleantech Group

Founded in 2002, the mission of Cleantech Group (CTG) is to accelerate sustainable innovation. Our subscriptions, events and programs are all designed to help corporates, investors, and all players in the innovation ecosystem discover and connect with the key companies, trends, and people in the market. Our coverage is global, spans the entire clean technology theme and is relevant to the future of all industries. The company is headquartered in San Francisco, with a growing international presence in London.

Our parent company, Enovation Partners, one of *Consulting Magazine's* 7 to Watch, is based in Chicago (learn more at [www.enovationpartners.com](http://www.enovationpartners.com)).
