

## COVID POLICY

### Cleantech Forum San Francisco, In Person Palm Springs 24-26 January

The health and safety of everyone attending the forum is our priority.

Accordingly, our Covid policy has been updated as of 4 January 2022, to reflect the changed circumstances with the Omicron variant, from October 2021, when the original policy was set. See the 4 January 2022 updates below.

These guidelines are here to ensure the safest possible conditions for the event and to ensure you can take all necessary steps before you join us.

- [Click here for the latest guidance and updates](#) on Covid-19 for the Greater Palm Springs area
- Please get in touch with us at [forums@cleantech.com](mailto:forums@cleantech.com) if you have any questions or would like to discuss any aspect of what this means for the event.

---

### VACCINATION and TESTING

---

To register for the event and gain entry on arrival, attendees will be required to:

- Verify two Covid-19 vaccinations have been administered at least two weeks prior to the event.
- **OR** produce evidence of a negative antigen test taken 48 hours before attending the event. [Find out where to get tested in Palm Springs.](#)

**If you do not have proof of vaccination or evidence of a negative antigen test, you will be refused entry without compensation.**

#### **4 January 2022 update:**

In view of the prevailing circumstances at the end of 2021, with regards to Covid and the omicron variant, in addition to the above verification of our entrance

CLEANTECHFORUM **SAN FRANCISCO**

Palm Springs, CA, 24-26 January 2022

requirements (which is legally required of us under State law), **we will also require all guests, before they will be able to obtain their conference badge, to take a rapid (10-15 minutes) on-site test**, so we are enabling mixing between our guests, on the basis of the most up to date information available.

---

## CAPACITY

---

The event is restricted to 300 guests.

No formal social distancing will be in place, this self-imposed capacity limit will make for a comfortable event, given the size of the indoor and outdoor event spaces. We ask everyone to be aware of the need to maintain personal distance.

### **4 January 2022 update:**

Rooms will be set up with a maximum number of occupants/participants in mind. Please understand that some of our smaller discussion sessions (in set-ups of 15-40 people) may get full.

We will do as much outside as possible.

Please help our team manage a safe environment for everyone by respecting capacity limits if and when they are imposed.

---

## MASKS

---

In California, masks are not currently mandatory at venues like ours, for an event of this size – except for the unvaccinated. These guidelines may change and we will update if necessary.

Nevertheless, we recommend everyone (unless medically exempt) wearing masks indoors, when not eating or drinking.

### **4 January 2022 update:**

CLEANTECHFORUM **SAN FRANCISCO**

Palm Springs, CA, 24-26 January 2022

Given the recent guideline changes issued by [the State of California's Department of Public Health](#), effective 15 January 2022, **we will now require masks to be worn in all indoor settings during the event, except for eating and drinking.** These should always cover nose and mouth.
