## Cleantech Forum Europe Attendee

Watt4Ever	<a href="http://watt4ever.be">http://watt4ever.be</a>	Watt4Ever is a Belgian startup that started in 2020 between Brussels and Flanders. Our mission is to make battery storage affordable and sustainable, and our values are the values of circular economy and technical innovation. Watt4Ever treats traction batteries from Electric Vehicles, that come out of the first-life value chain. Those batteries can be used, but also new and discarded for reasons that have nothing to do with the battery's performance or remaining lifetime. Watt4Ever dismantles the batteries to modules, and tests them to give them a second life in other applications. Batteries that cannot be reused are prepared to go to recycling.	Entrepreneurial	Europe & Israel
WeSmart	<a href="http://www.wesmart.com">http://www.wesmart.com</a>	WeSmart provides a comprehensive solution (SaaS platform and services) for the complete management of renewable energy communities. Our goal is to develop a European leader in the field of renewable energy community platforms and services. We provide to community managers and participants, a digital platform to manage energy consumption and production, including real-time optimisation algorithms. This platform also provides recommendations on when to consume based on renewable generation and optimally shift energy load curves.	Corporation	Europe & Israel
Women in Cleantech & Sustainability	<a href="https://www.womenincleantechsustainability.org">https://www.womenincleantechsustainability.org</a>	Women in Cleantech and Sustainability fosters an influential network of professionals to further the roles of women in growing the green economy and making a positive impact on the environment.
