

## Carter Shoop, Chief Revenue Officer, Aurora Hydrogen

Carter is the CRO for Aurora Hydrogen, the leading low-cost, low-carbon hydrogen production company. In this role he oversees sales, marketing, policy and customer service. Prior to this role, Carter has had various sales and operations roles at leading climate-tech companies, including Electric Hydrogen (green electrolysis) and Gemini Motors (hydrogen trucking OEM). Carter first became involved in climate-tech in 2006 while at Deutsche Bank. Carter led the investment bank's climate-tech equity research team focused on grid-tech, energy efficiency, and water-tech.
