# Intersection of Cleantech & AI

Cleantech and AI are two rapidly growing fields, and growing in importance as we look to our collective future. At the intersection of cleantech and AI lies a world of possibilities.

Almost **\$30 billion** has already been invested in AI-enabled cleantech innovation since 2018, and we estimate **at least \$138 billion** capital will be required over the next 5 years to scale innovation.

**The CleanAI Strategic Intelligence Service (SIS)** provides an opportunity for active engagement with AI-enabled cleantech innovators and key stakeholders catalyzing business opportunities that impact the clean economy transition.

# Become a CleanAI Member to Dive Deeper and Identify Opportunities

Members gain access to **cutting-edge research and insights**, providing up-to-date information on the latest technologies and market trends in CleanAI. Our network also offers unique opportunities for networking and collaboration.

**Strategic Intelligence Service includes:**

	Members	Leaders
<b>Baseline Study</b>	✓	✓
<b>Quarterly Briefings</b>	✓	✓
<b>Monthly Updates</b>		✓
<b>Analyst Access</b>		✓
<b>Clean AI Summit</b>	✓	✓
	<b>\$25,000</b>	<b>\$40,000</b>

**Baseline Study**

- Access to study covering market trends, key players, investments, and more
- Annual updates

**Quarterly Briefings**

- Thematic deep dives
- Updates across landscape
- Topics prioritized by Leaders

**Clean AI Summit**

- Access to event
- 3 tickets included for Clean AI Initiative Members and Leaders

**Monthly Updates**

- Ongoing primary research & monitoring of new companies, funds, & ecosystem members
- Industry group case studies
- Targeted innovator profiles

**Analyst Access**

- Access to Cleantech Group analysts
- Access to data points on innovators, investors and market movements

# “Cleaning Up With AI” Baseline Study

The “Cleaning up with AI” baseline study is the **first global report laying out the current state of the cleanAI industry**. The study provides Members with:

- An understanding of how AI is being applied in Cleantech today, key trends and how it may evolve
- Ability to differentiate where AI is adding incremental value, and where it becomes a breakthrough technology for Cleantech
- Statistics on where investments have been made to date, and areas to look out for as innovation grows
- Examples and case studies of the key innovators today

## Table of Contents

- **Executive Summary**
  - **Section 1: Establishing the Landscape**
    - CleanAI: What is it?
    - Demand for CleanAI
    - Investing in the Transition
    - Supply of CleanAI
    - Challenges
  - **Sections 2-6: CleanAI in each of the Cleantech Industry Groups**
    - 2. Agriculture & Food
    - 3. Energy & Power
    - 4. Materials & Chemicals
    - 5. Transportation & Logistics
    - 6. Resources & Environment
  - **Looking Forward**
- ▶
- Overview
  - Investments Trends
  - Landscape
  - Market Trends
  - Innovator Profiles

Access the Executive Summary:

# Inaugural Clean AI Summit

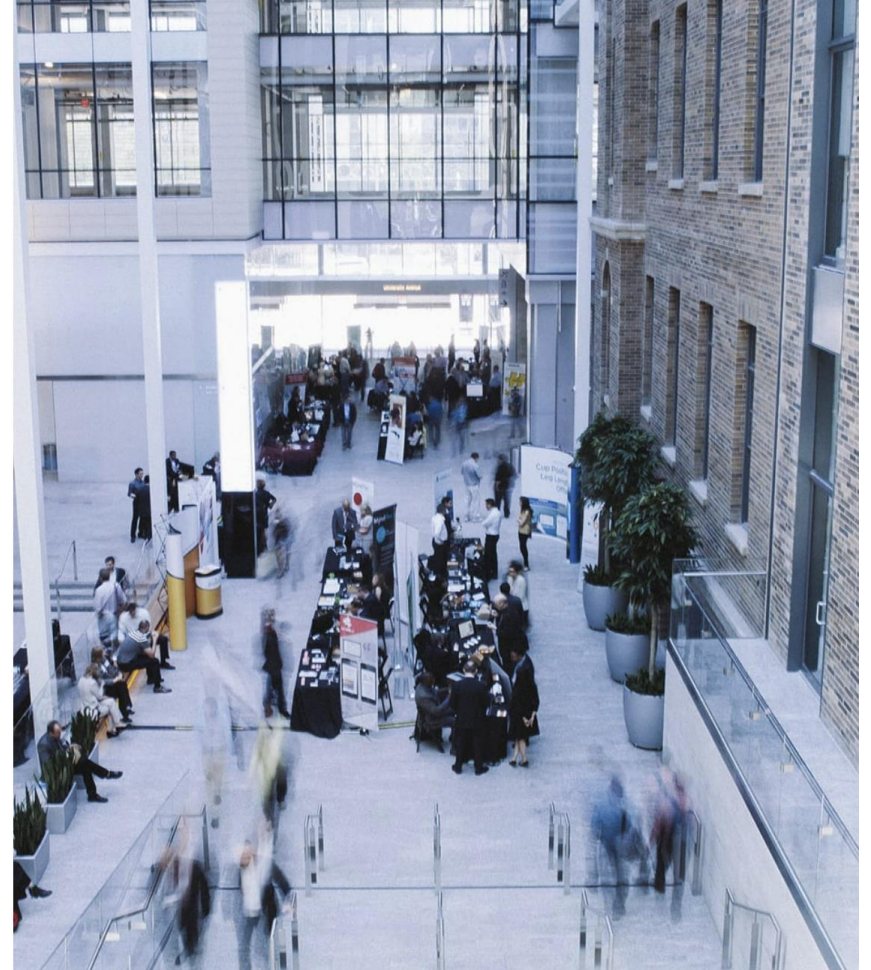

Clean AI Initiative is hosting  
the world's first summit dedicated to the cleanAI space.

DATE: JUNE 17, 2024

LOCATION: MARS CENTRE, TORONTO, CANADA

The full day program will feature top thinkers and industry leaders already taking action in cleanAI. Participation in the summit is limited to 150 people, maintaining a high-quality experience focused on an audience of key decision makers and C-suite leaders.

Reach out at [hello@cleanai.com](mailto:hello@cleanai.com) for more details and sponsorship opportunities.
